

# Intramural Sports

## New to this

- Start with the common sports which are most popular (Football, Basketball etc.)
- Advertise it well, if starting new go for a 6 a-side teams, where it is easy to get a team together.
- Allow the day for intramural not to be entangled with fixtures.

## Already up and running

- Introduce new sports that are less strenuous and great fun (bowling, pool)
- Once a few intramural leagues up and running, try Intra Halls. This will allow for wider student experience, and introduce more 1st years to sport.
- If this is successful try intra schools.

## Intra University

- This is not run by SUS and does not count towards BUCS points.
- This is more for social teams not already part of clubs but want to go on tour and try playing against other unis.
- Prizes are presented to most travelled and winners.
