

REPORT FROM COMPS

The new committee has met once on Tuesday 10th August at Heriot-Watt University. In addition, a sub group of comps has been meeting throughout the summer to design a new meeting framework for comps this year as well as covering the normal workload required ahead of the new academic year.

Comps Meeting Structure

In addition to the normal business of the meeting, comps will now focus its efforts on four areas that we feel are a priority for the year. These are: Coaching, Officiating, Conference Cup Finals and Fixture & Event Admin. Sub groups have been set up amongst the committee and all groups leaders have been tasked with developing these areas throughout the year.

Fixtures and Events

All fixtures have been published ahead of the Friday 13th August deadline. The events planner is now in operation and it is the responsibility of the staff in the office and SDC's to publish the information asap. Seasons information booklets will be produced for as many sports as possible and all entries will be online only.

SDC meetings

As part of his workload throughout the summer Stew has met with as many of our SDC's as possible. These meetings were useful for a number of reasons but mainly so that Stew can update them on the impending changes to the fixtures and events.

Fixtures Training Day

Held on Wednesday 18th August at Heriot-Watt University, this provided presidents and fixture administrators with all the relevant information for their year ahead in office.
